InFocus

The New Way to Collaborate

Turn Your BigTouch Into an Interactive Whiteboard

Add the BigNote™ app to your InFocus BigTouch™ and turn it into a powerful interactive whiteboard.

Take notes, sketch, annotate, and share your work with this easy-to-use app.

- Pens, highlighters, shapes and lines in multiple colours
- Whiteboard on a canvas that can be extended 10x in any direction
- Annotate on screen and save the changes
- Email files to meeting participants from your email client
- Files are interchangeable with InFocus Mondopad
- Run it on any Windows 7 or Windows 8 PC
- Free 60-day trial

Easily import images and annotate on them

Draw shapes, lines, letters and more

Try BigNote today.

BigNote whiteboarding makes work more imaginative and productive

BigNote is designed for touch—so you can take full advantage of all the interactive capabilities of the BigTouch display. But BigNote is also compatible with Windows 7 and Windows 8 laptops and desktop computers.

Simple, fun tools help your team brainstorm and capture info and ideas

Take command of the screen with a complete set of writing and drawing tools, pens, highlighters, shapes and lines. BigNote sparks conversation, stirs interest and lets you record and share information and ideas.

On-screen notes and real-time collaboration keep ideas from escaping

Bring the Windows interface into BigTouch, so you can circle or highlight key info on PPT slides, spreadsheets, design comps and docs. Annotate on-screen too for more effective communication.

Share drawings and notes right from the screen

When you're ready, you can easily collect, save and email anything you create in BigNote right from the BigTouch display.

Cross-platform compatibility lets you switch devices easily

BigTouch and Mondopad share a similar feature set and interface, so whiteboard files created on one platform also work on the other.

System Requirements

Operating system	Windows 7 or 8
Processor	Intel i5 or above
RAM	4 GB
Hard drive space	18 MB
